AQUA INTENSE

**A NEW LEVEL
OF HYDRATION**

MILANO | ITALY

THE CAUSES OF SKIN DEHYDRATION

When the skin's normal protection systems are damaged, the moisture in the stratum corneum is lost and the skin becomes dehydrated.

The multiple causes leading to dehydration can be both physical and environmental. Even perfectly healthy skin, in certain conditions, can experience dehydration.

Very specific conditions are associated with dehydrated skin:

Skin tightness

Desquamation

Skin redness

Causes:

- Aggressive detergents
- Unfavourable weather conditions
- UV radiation
- Pollution
- Specific therapies
- Contact with chemical substances

A SOLUTION FOR HEALTHIER SKIN

One of the approaches to restore skin protection systems (hydrolipidic film, epidermal barrier) is to supply compatible lipids and hydrophilic molecules. Furthermore, because dehydrated skin is prone to irritation, the applied products must contain selected ingredients that make them well tolerated by the skin.

To satisfy this need, our laboratories have created Rilastil Aqua Intense, a line of specific products for skin hydration.

*Rilastil Aqua Intense:
Hydration essentials to keep your skin
fresh and toned and to prevent the
appearance of wrinkles.*

Hydrate and soothe

RILASTIL AQUA INTENSE SPRAY

Rilastil Aqua Intense Spray is a daily hydrating concentrate with a light and fresh texture, that can be used on-the-go.

ACTIVE INGREDIENTS

- **HYALURONIC ACID (HIGH AND LOW MOLECULAR WEIGHT)**
- **WITCH HAZEL EXTRACT AND SODIUM PCA**

ACTIONS

- **hydrates** and soothes the skin
- **maintains** optimal hydration during the day
- **soothes** in case of skin discomfort

How to use

Evenly spray on the face in the morning and evening or during the day if experiencing discomfort.

Spray at no less than 15-20 cm, keeping your eyes and mouth closed. Do not inhale.

External use.

How it works

This ultra-light mist spray, with Witch hazel and Sodium PCA, soothes and protects the skin, maintaining optimal skin hydration.

Hyaluronic Acid (high and low molecular weight) provides an hydration boost.

**INSTANT HYDRATION
WITHIN REACH.**

Wherever you are

At the gym

At the office

In the city

At the beach

While travelling

Hydrate and protect against pollution

RILASTIL AQUA INTENSE GEL SERUM

Rilastil Aqua Intense Gel Serum is an intensive moisturising treatment with replumping and anti-pollution effect.

ACTIVE INGREDIENTS

- **HYALURONIC ACID**
- **(HIGH AND LOW MOLECULAR WEIGHT) CHONDRUS CRISPUS EXTRACT**

ACTIONS

- **provides** an intensive boost of hydration
- **protects** against antipollution
- **enhances** the moisturising efficacy of other Rilastil Aqua treatments
- **leaves** skin silky smooth

How to use

Use morning and evening onto clean, dry skin before your regular cream treatment. Apply evenly with a short massage.

How it works

It restores the proper moisture levels, strengthening the skin barrier and reducing trans-epidermal water loss, thanks to its concentration of Hyaluronic Acid (high and low molecular weight) - for both deep and superficial hydration.

The Chondrus Crispus Extract creates a light film that protects the skin from pollutants and strengthens the skin barrier.

**SKIN IS MORE RADIANT,
SMOOTH AND HEALTHY.**

Intensive hydration

RILASTIL AQUA INTENSE 72H

Rilastil Aqua Intense 72H gel-cream activates facial hydration for up to 72 hours, maintaining optimal moisture levels in the skin.

ACTIVE INGREDIENTS

- **HYDRABOOST:**
biotechnological booster
- **HYALURONIC ACID (HIGH AND LOW MOLECULAR WEIGHT)**
- **CERAMIDES**

ACTIONS

- **maintains** moisture balance
- **provides** immediate relief from dryness and tight skin
- **strengthens** the skin barrier
- **prevents** the signs of aging

How to use

Use daily for instant hydration. Alternatively, apply a thick layer of product, leave on for 5 minutes, then remove with a cosmetic tissue, as a mask.

How it works

A super-moisturising treatment with an ultra-light light texture, containing high and low molecular weight Hyaluronic Acid.

Hydraboost enhances the effect of Hyaluronic Acid and activates skin hydration.

Ceramides help strengthen the skin barrier and reduce trans-epidermal water loss.

INTENSIVE HYDRATION PROTOCOL

Beauty routine

Seasonal changes, sudden increases in humidity and temperature changes, as well as long travels may alter your skin's natural balance. These 3 simple steps, both morning and evening, will help you prepare your skin in the best way.

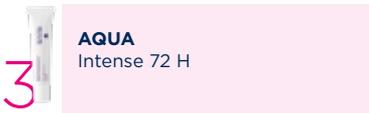

1

AQUA
Face Cleanser

2

AQUA
Intense Gel Serum

3

AQUA
Intense 72 H

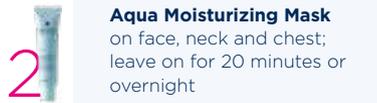

Once a week

Treat your skin to a wave of hydration.

1

AQUA
Face Cleanser

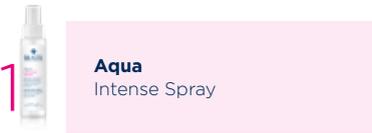

2

Aqua Moisturizing Mask
on face, neck and chest;
leave on for 20 minutes or
overnight

Always with you

During a work-out, at the office or before a special occasion... Restore the right level of skin comfort whenever you feel like it.

1

Aqua
Intense Spray

RILAS *Tips*

The dreaded neck wrinkles can reveal your age more than lines on any other part of the body. Unlike facial wrinkles, not much can be done to correct them, other than using the right treatments and applying them with a simple massage.

Using smartphones and tablets has contributed to decrease the average age when the first neck lines normally appear.

Remember to pay attention to your neck as much as you do for your face!

*Less than 1 part per million each. Small quantities can be responsible for skin sensitization.

** Products formulate to minimize the risk of allergy.
